Scandal at Rome.

There is a scandal at Rome in a princely family which the newspapers discreetly describe with an abundance of X's, asterisks and mystery, though to the initiated or patient these are superfluous. The Princess Massimo has besought the intervention of the Pope to recall her husband, Prince Camillo, to a sense of his duties, and prevent him squandering his fortune on a German lady—married—with whom he is infatuated. The Prince has declined to accede to the Pope's desire, and a public lawsuit is inevitable. His wife, to whom he was married in 1860, is a half-sister of the Count of Chambord, being a daughter of the Duchess of Berry by the Duke of Luchesi-Palli, the second child of a Union that perhaps made more sensation in its day than any other marriage of our time.

Slaves' Effervescent California Fruit Salt

Is prepared from sound, ripe fruit, by an experienced analytical chemist, who has spent years in experimenting on its preparation. It is manufactured by a special process known only to the proprietor. This preparation is a safe, simple and effective medicine for regulating the action of the stomach, liver and kidneys. It is most particularly recommended for Dyspepsia, Indigestion, Headache, Heartburn, Acidity of the Stomach, Habitual Constipation, Nausea, Sea Sickness, Kidney and Liver Troubles, Over-indulgence either in eating or drinking, etc. As a purifier of the blood in all Scrofulous Diseases, it has no equal. It removes all eruptions from the skin and has a cooling and invigorating effect on the system. The FRUIT SALT is entirely different from any of the effervescent Salts or Soda preparations in the market, being manufactured from Fruit. For sale by all Druggists and Dealers generally.

Is It Possible

That a remedy of such common, simple plants as Hops, Buchu, Mandrake, Dandelion, etc., makes so many and such marvelous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, Pastor and Doctor, Lawyer and Editor, all testify to having been cured by them, we must believe and doubt no longer. See other columns.

Oh, What a Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourself if you can afford for the sake of saving to etc., to run the risk and do nothing for it. We know from experience that Shiloh's cure will cure your cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves cough, and whooping Cough, and all other Mothers do not be without it. For lame back, side, or chest, use Shiloh's Porous Plaster. Sold by Osburn & Shoemaker, druggists, Reno, Nevada. nov-2d-dw

Answer This Question.

Why do so many people we see around us, seem to prefer to suffer and be made miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Coming up of the Food, Bloating Skin, when for 75 cents they can have Shiloh's Vitalizer guaranteed to cure them? Sold by Osburn & Shoemaker, Druggists, Reno, Nevada.

Strangely Marked.

The Brunswick (Ga.) Advertiser tells of a strange freak of nature on the person of a negro child, about six years old, having one side of its face pure white as any of the Caucasian race—so purely so as to be freckled. The outlines of "the mark," for so the mother calls it, begin about midway the forehead and run down the bridge of the nose, across the lips to the chin, or nearly so, and then rounding on the right cheek reaches the starting point in the centre of the forehead. The child's mother states that it was born so.

How to Secure Health.

It is strange any one will suffer from derangement brought on by impure blood, when "SUIVILL'S SASSAPARILLA AND STILLINGIA, OR BLOOD AND LIVER PURIFIER" will secure health to the physical organization. It is a strengthening syrup, pleasant to take, and the BEST BLOOD PURIFIER ever discovered, curing Scrofula, Syphilitic disorders, weakness of the Kidneys, Erysipelas, Malaria, Nervous disorders, Debility, Bilious complaints and diseases of the Blood, Liver, Kidneys, Stomach, Skin, etc. BAKER'S PAIN PAXACAE cures pain in Man and Beast. DR. ROGERS' WORM SYRUP instantly destroys WORMS. jly18-3m

For a dinner thoroughly appointed, the good old way was to wash down the last triumphs of the feast with copious libations of old Port and Golden Sherry; but "HUB PUNCH" has added a new sensation to the epicure. Its delicacy, aroma, flavor, and delicious, but gentle effects, proclaim it the nectar fit for the gods banqueting on Olympus.

Mix HUB PUNCH with Ice Water, Cold Tea, Lemonade, or Soda. It is unanimously pronounced unrivalled.

NEW BOOKS.

The Rev. Dr. Chas. S. Robinson's "Spiritual Songs for the Sunday School" are meeting with a very hearty reception, which shows that such a compilation was needed. Over a thousand copies have been printed during the last year. The Century Co. has just issued the songs alone, without the tunes, in neat red cloth binding, which can be sold for twenty cents apiece. Such old favorites as "Nearer, My God, to Thee," "My Country" and "Watchman" are found in the collection with many new and beautiful things.

A SELECTION OF SPIRITUAL SONGS FOR THE SUNDAY SCHOOL. By Rev. C. S. Robinson, D. D. The Century Co., 1881. For sale by W. A. and C. S. Houghton, Sacramento.

The aesthetes have been the subjects of such merciless ridicule that a great many people have doubted the existence of such utterly utter people. The play of "Patience" now running in San Francisco is the Pinafore of the aesthetes. The leader of this strange social movement is a young man who went from Dublin to London, let his hair grow very long, wore strangely made garments, and carried lilies in his hands. He talked in a "high-flown" fashion, and his sayings began to be quoted. A caricaturist took him up, and the young man appeared as Maude in *Punch*. A playwright gave him a place in "Where's the Cat?" The name of this eccentric genius is Oscar Wilde. When it was announced that he was about to issue a book of original poems it created a great interest in society circles. The book is out and lies on our table. It unquestionably contains real merit, although there is some affectation and straining after effect. It is not likely that a great poet has been born, but it is probable that the author has the ability to maintain the position his bold and eccentric entrance has gained him in English society.

POEMS. By Oscar Wilde. Roberts Bros., Boston, 1911. Sold by W. A. and C. S. Houghton, Sacramento.

Major Ben Truman has "writ a book." It is full of humorous and striking incidents of early days in California, many of them personal. It is in a light and pleasant vein, such as can be picked up any time or anywhere. It contains the merit shown by Major Truman in the excellent letters he wrote for the *Bulletin* when he was traveling as special agent for the Postoffice Department. For sale by A. L. Bancroft & Co.

POLITICAL PURITY.

Judge Tourgee recently said in a lecture at Chautauqua, "The chronic grumbler says that political life of today is so corrupt. I don't believe it. I believe in the purity of to-day. I believe that our moral ethics as a nation is at its highest mark to-day. I can have no sympathy with that class of people who keep calumniating our political life, whose only mission seems to be to praise God and find fault. We only see the bright side of the past. A few years ago a crime could be forgotten before it reached the State line. To-day a deed of shame is read on three continents before the blood of the assassin's knife is dried. If these changes are true, whose fault is it? I say emphatically the fault of those Christians who want to do their political duty! Prayer and voting once a year aren't enough. We are not to stand on the pinnacle of purity and scold at evil; we must meet our own personal duty by putting our shoulder to the wheel of Government."

The most vigorous thing which has appeared in the *San Francisco Post* for one year, was the portrait of Sitting Bull. There was some character about that.

The income from taxes in England is about \$20,000,000 (\$400,000,000). Of this sum about \$26,000,000, or \$140,000,000, goes to pay the interest on the National debt.

The United States Senate will be a tie after the admission of the New York Senators, counting Davis a Democrat, and Mc-hone with the Republicans.

Brook Trout.

N. Y. Tribune.

Every now and then Mr. Seth Green, the veteran authority on fish culture and an ardent lover of the science of angling, is buttonholed and made to divulge some of the facts and incidents of his experience, and he always has something to say worth hearing. In one of his recent talks he seems to have settled a question which has vexed the temper of many a sportsman. In reply to the question whether or not genuine brook trout ever developed a weight beyond six pounds, Mr. Green said: "Yes sir, they do. I have seen a ten-pound genuine brook trout myself." The peculiar value of this decision lies in the extraordinary intimation that the ten-pounder was not caught by the judge. If Mr. Green had said: "I have myself captured," etc., it might be held that the question was still an open one.

Stupid Stebbins.

S. F. Stock Report.

Rev. Dr. Stebbins, by suppressing military instruction, has lost the military instructor provided by the general Government, will have to return to the Benicia arsenal \$14,000 worth of Government property, and has imperiled its land grant. We say that Dr. Stebbins did the suppressing, because he is ignorantly the Board of Regents—a fact which accounts for the failure of the University to accomplish the results expected of it and for its unpopularity. The people of California have no very high idea of Dr. Stebbins' capacity for the position of instructor of youth.

The San Francisco Election.

SAN FRANCISCO, Sept. 9.
The complete returns of the city election show that the Democrats have elected their candidate for Surveyor and Supervisor in the Third and Sixth Wards. With these exceptions the Republicans have made a clean sweep. Sedgwick for Sheriff has the highest majority—3,405. Blake for Mayor has 2,092, and thence the majorities range down to a few hundreds. It is possible that the official count will change the figures in detail, but is not likely to affect the result.

3 P. M.—The count of the Registrar of Elections to-day shows that Grady (Dem.) has been elected Tax Collector by a majority of 396. Otherwise the result is unchanged.

A Mokelumne River Monster.

Upon the highest Celestial authority there is at the present time habiting the Mokelumne river, only a few miles from this place, a short distance above the Big Bar bridge between Jackson and Mokelumne Hill, a water monster that has spread consternation and terror among our entire Chinese population. They assert that one day this week a number of them were on the river just below the old Boston mill site, when they saw what they supposed to be a large fish near the top of the water, and one of their party made a leap into the water to capture the prize. But no sooner had he struck the water than the monster turned upon its would-be captor, and instantly drew him under, from whence he had not arisen at last accounts. The monster is said to have teeth like a dog, and to have powerful strength, as the man was as nothing in his grasp. The Chinamen who witnessed the tragic fate of their unfortunate countryman, concluded that the thing was the devil, and fled for their lives. It is also claimed that another Chinaman lost his life in about the same manner, near this place, several years ago, and it is thought that this is the same monster returned, if indeed he has not inhabited the Mokelumne ever since. While we are not prepared to vouch for the truth of this story, yet it is evident that something has occurred or been seen on the river to excite our Chinese denizens and put them ill at ease. Some of our daring and curious citizens talk of getting up a party to investigate the matter, and, if possible, capture the monster, which they believe to be the Calaveras *Chronicle's* long lost snake, which has not been heard of since Higby went into the Internal Revenue Department.—*Amador Dispatch*.

It appears that Captain Howgate not only stole from the Government, but also obtained money from individuals which he neglected to repay or account for. In July last James B. Wilber, a clerk in the office of the Signal Service Corps, put \$900 in the hands of Howgate for the purchase of fifty shares of mining stock, to be delivered in thirty days, but the time expired, the stock was not purchased, nor was the money returned.

Owing to the numerous recruits required to fill the army to its authorized strength, the standard for artillery and infantry has been fixed at five feet four and upward, weight 120 to 190 pounds. For Cavalry—five feet four to five feet ten, not to exceed 165 pounds. Recruits and officers are being ordered to Arizona.

Leader, September 8th: "C. M. Fassett, of Reno, who is to purchase Dr. Welch's drug store on Ruby Hill, arrived by last evening's train.
The North-East Sun of August 27 says: "Col. Richard P. Chapin, of Reno, Nevada, is in the city. He is looking heavy and well. On Wednesday he left for the sylvan glades of Wattsburg, where he will while away a few days calling upon friends and relatives.

Pig and Cider.

To-morrow morning at 11 A. M. Chase & Thies will carve a roast pig. The pig has been fed on red cows milk, baked beans and doughnuts. California apple cider on draught at the same hour and place. Now, pig and cider is good enough for anybody.

PROSPERING FINELY.

The Nevada and Oregon Going North Rapidly.

The graders camps will all be moved beyond the twentieth mile post the first of next week except a few that are cleaning out the brush on the nineteenth mile. The grading through Lemmons' valley will then be completed and ready for the rails. The trestles are all done but one, and it will be finished to-day. Then there will be no more bridging until near Cold Spring, a distance of ten or twelve miles. Camp six has just been opened and everything is being moved out. It stands at the mouth of a little canyon that cuts through the divide near the north-west corner of Lemmons' valley. It is four miles from there to Cold Springs, and there is some cutting and filling to be done, but nothing to that between Reno and the summit. The work already done is highly creditable. The ten miles of iron that are down are in the highest style of art. The curves are all up in shape, and the gauge and lining excellent. Where wagon roads cross, good plank crossings have been put in, giving plenty of room at easy grades. Beyond the end of the iron the road bed stretches out across the valley as smooth and pretty as Harlem Lane. The corners of the banks are as sharply cut as if they were laid in stone, and the cuts are even and smooth. The water question is the great trouble. Several teams are all the time engaged in hauling water to the different gangs of laborers from the few springs that are to be found. The train is now engaged in ballasting up the track. As soon as iron comes it will have all it can do to haul out material, as the track will be pushed ahead at the rate of a mile a day for the next twenty miles or more. The mills at San Francisco have their money now for the iron, but they are unable to deliver it promptly. Col. Moore is getting on men enough to get the grade ready to the Junction as fast as it is expected to be supplied with rails. The company has a proposition for a telegraph line, and will likely have one up very soon. It will be thirty-six and three-quarter miles to the Junction. From the Junction it is very likely that work will be pushed west, through Sierra valley, and north, through Long valley, at the same time. Both routes offer great inducements, and the Plumas Branch would give an immediate and reliable support. The road would cross into Sierra valley without any hard work or heavy grades. Across the valley it would have level ground, and to reach Mohawk valley no great difficulty would be encountered. At Mohawk it would command all the Plumas-Eureka business, and it is very doubtful about its going further for years to come. The line to Quincy will be very expensive, and the support very light beyond Mohawk. The road is making friends every day. It is being well managed and well built, and will be a great benefit to the whole country.

Parkie Bays the Moon.

Last evening the full moon rose with a splendor seldom witnessed. The sky was hazy, says the Tribune, and the evening goddess presented a somewhat peculiar appearance. A sort of dusky disc, and the "old man's" features looked as if he had been on a protracted spree. The moon looked as if he swelled up with some portentous knowledge that greatly interested the dwellers of this suburban sphere. It was a glorious moonrise, and many a one was compelled to remark: "Wonderful art Thy works." One fellow from Reno spoils all the poetry by remarking that in his town they had a better sight every night in the week, the headlights of the locomotives.

A Mammoth Sale.

F. Levy & Brother announce that they will give the people of Reno and vicinity a chance to purchase dry goods at an immense sacrifice. On September 12th they will commence what is called "a lightning clearance sale," which must be completed in four days. In this short time they will dispose of \$20,000 worth of drygoods at less than the cost of production. Dress fabrics, cloaks, foreign hosiery, domestics, fancy goods, etc. This will be a cash sale.

Supreme Court.

The Supreme Court has rendered a decision adversely to Leete et al. in the case of the two boards of trustees, which were contesting for the control of the Orr Water Ditch Co.

SIERRA NEVADA AND UNION.

Senator Fair Interviewed Concerning the Rise in North-End Stocks.

The Virginia Chronicle of last night said: "An excitement was caused to-day by reports of ore being struck in the Union Con. and Sierra Nevada mines. Rumor located the new strikes in the north cross-cut of the Sierra Nevada and in the Union winze. These reports gradually grew until it was stated that all the drills in the various mines at the north end had encountered ore. No one pretended to say what the assays were, but all were certain that something good had been struck.

As the San Francisco stock boards are not in session to-day, it being California's Admission Day, it was impossible for speculators to secure the desired shares in the regular way, so a sort of bushwhacking fight at short range was at once begun. R. B. Mitchell offered John Gillig \$17 a share for 100 shares of Sierra Nevada, but Mr. Gillig declined to sell for less than \$25 a share.

A reporter called upon Superintendent James G. Fair. In reply to the questions propounded he replied that it was impossible to give any information at this time. Being pressed, he said: "What is the use of saying anything at this time? The Board is not in session to-day, anyhow."

Reporter—The stock board doesn't make any difference to the people. It is the mine they are anxious to learn about.

Mr. Fair—Yes the board does make a difference. That's what make some of them that are short feel so uneasy. Colonel Fair seemed to be in a merry mood, and was evidently well pleased about something.

Church Notices.

There will be divine service at Trinity church to-morrow, as usual, Rev. W. R. Jenvey officiating. Owing to the absence of the pastor there will be no services at the M. E. Church to-morrow. Sunday School as usual.

Rev. A. B. Palmer, pastor of the Congregational church, will preach at 11 o'clock, followed by Sunday school. Evening service at 7:30 o'clock. Strangers cordially welcomed.

Rev. Dr. Scott of the Baptist Church commences a series of sermons Sunday night on special subjects. The praise service will be especially interesting. Solos will be sung by Mrs. Taylor and Mr. Scoville, and anthems and choruses will be rendered by a large choir. The cantata "Under the Palms," for children and adults, will be rehearsed at 3 P. M. Services commence promptly at 11 A. M. and 7 P. M.

Vassar Style.

The following billet-doux was picked up accidentally on the street to-day. It is bona fide, verbatim et literatim, bonum humilitatis as written, except that the names are omitted. We have not seen anything so extremely too and so utterly yum for a long time:

LARAMIE, W. T.

Lovliest and Sweetest—: I passed the house over twenty times yesterday, hoping to see you, but could not. You know I must see you once a day, my pet.

The last time I saw you I did want to kiss those red, rosy lips so bad, but I did not, my sweet pet, did I, birdie? Ever yours only.

—Laramie Boomerang.

Promoted.

J. C. McClure, of Carlin, was in Reno last night on his way home. Mr. McClure has for thirteen years been Superintendent of Sison, Wallace & Co.'s business between Truckee and Carlin. He has now been ordered by the company to make his headquarters in San Francisco, from whence he will make occasional trips south as well as east.

Another Double Store.

Sunderland is getting ready to move his boot and shoe store into the new building, one door south. A large opening will be cut in the partition, and the present room filled with a stock of hats and furnishing goods. It will be a fine improvement to Reno.

A Velvety Purchase.

The photographic excitement which broke out here recently has caused all of our best young men and women to have their pictures taken. Nasby has consequently sent for and received a fresh invoice of velvet picture frames. 9, 11, 1 and 3—66, 74, 77, 78.

M. J. Stinson, Teacher of the Piano and Voice Culture. Pianos tuned and repaired. Orders left at E. A. Allen's store will receive prompt attention. May be consulted or addressed at the residence of Rev. Dr. Scott, Lake's Mansion.

ARTESIAN WELLS.

The Bounty Offered by the State to Encourage Sinking Them.

Artesian wells, says the Silver State, are of the greatest benefit imaginable to the people of Nevada. Without water for irrigating, the State is practically worthless for agricultural purposes. The soil is rich, but the climate is so dry that without artificial irrigation nothing but sagebrush and stunted shrubs of that character will grow in the rich valleys, where, with plenty of water, trees, grain and vegetables grow luxuriantly. This has been demonstrated at Battle Mountain, which was located on an arid plain which produced nothing but sagebrush, until artesian water was procured for irrigating. In a few years the place has changed as if by magic, and trees, flowers, grasses, grain and vegetables flourish where only a few years ago a jack rabbit could not live on the natural vegetation of a quarter-section of land. Besides the advantages to be derived from artesian water for agriculture, it might be used advantageously for mechanical purposes. This ought to be sufficient to induce moneyed men to try the experiment of getting flowing water from an artesian well. The cost, so we are informed, will not exceed three or four dollars per foot for a depth of three hundred feet, and the State gives a bounty of two dollars per foot after a depth of five hundred feet is attained. An Act passed by the Legislature, approved March 6th, 1879, provides that every person, firm, corporation or association that shall sink an artesian well within this State shall be entitled, after the first five hundred feet shall have been sunk, to the sum of two dollars per foot, to be paid out of the General Fund of the county in which the well is situated.

CLERICAL CONVOCATION.

Programme to Be Followed at the Assembly of the Episcopal Clergy of Nevada.

A convocation of the clergy of the Episcopal church in Nevada will be held in Trinity church on Tuesday, Wednesday and Thursday of next week. The order of exercises will be as follows: Tuesday morning at 11 o'clock; full morning service, with an opening address by the Bishop, and the celebration of the holy communion. Tuesday afternoon at two o'clock; organization of the convocation, election of secretary, and reading of reports from the various parishes. Tuesday evening at 7:30 o'clock; an essay on "Preaching," by the Rev. R. S. Eastman, the extemporaneous discussion to be opened by the Rev. W. R. Jenvey. Wednesday afternoon at 2:30 o'clock, an essay on "Pastoral Visiting," by the Rev. C. B. Crawford, the discussion to be opened by the Rev. Geo. N. Eastman. Wednesday evening at 7:20 o'clock; an essay on "Preparation for Confirmation," by the Rev. Geo. N. Eastman, discussion to be opened by the Rev. R. S. Eastman. Thursday afternoon at 2:30 o'clock; an essay on "The Sunday School," by the Rev. W. R. Jenvey, discussion to be opened by the Rev. Geo. R. Davis. Thursday evening at 7:30 o'clock; sermon by the Rev. Geo. R. Davis. The public is most cordially invited to attend all these services, as they are open to all, and will be both interesting and profitable.

A Vigorous Pen.

The following, "To Charles Guiteau, the Assassin," is from the National Republican of Washington. While the orthography and punctuation are not exactly correct, the language is vigorous enough:

go thou festering canker on the breast of time get thee to some barren waste or desert clime and lap the blistering dew from poisoned fen and weed and hear a nations curses on thy bloody deed go where god's love can never—never—shine and bathe thy loathsome carcass in the reptiles slime far in the torrid zone—upon some cactus bed stretch thy cursed form too soft for your infamous head and hear the dread summons in hissing whispers tell how your damned soul is foremost on the road to hell let the fierce light from demons fiery eyes throw thy black shadow against the threatening skies and on hell's crater may you even look back to see the avenging band swift upon your track let space upon eternal space expand to echo back the curses of our bleeding land—thou wretch—of this peaceful age thy name in infamy on history's page shall live and when you are dead—dead—and your putrid breaths come out over your rotten corpse millions then will shout and you will be where the fire dont go out.

A Great Improvement.

Mr. Editor—Sir: I always had a desire to learn to write a beautiful hand, my teachers tried to learn me to write, but could not. I asked Professor Butts if he could teach me to write beautifully. He told me could qualify me to teach writing in twelve days. He has done it, and he has got me a school to teach, in the country, of twenty-five scholars, at three dollars per scholar for twelve lessons. I will clear at the rate of one hundred and fifty dollars per month. I would not be placed back in that miserable hand for one thousand dollars.

Who Hissed?

O. W. Jasper, writing from Berkeley, referring to the alleged "hissing" at the inauguration of President Reid of the University of California during the delivery of that gentleman's address, says: "Press reporters, either through negligence or by mistake, placed the hissing act which happened during the delivery of President Reid's inaugural address, upon the shoulders of the students. That their accusations are false are amply testified to by all those present on that occasion who were well enough acquainted with the students to be able to distinguish them from those accidental clackers who chanced to be there, and whose conduct has unfortunately caused so much uncomplimentary and undeserved criticism. The members of the faculty speak freely to this effect; and President Reid himself told me in conversation that he was satisfied that none of the students took part in the unmanly conduct shown toward him."

He Took an Interest.

Peck's Sun.

A traveling man sends us a joke which we do not remember seeing in print. Two commercial agents met at the depot with their grips, when one said: "Hello, John, where have you been?" John said he had been laying off, but now he had an interest in the business and was going on the road again. The friend congratulated him on having attained the proud position of partner in one of the largest houses in Milwaukee, which was making money hand over fist, when John broke in by saying: "No, I'm not a partner; but the old man told me if I didn't take more interest in the business he would bounce me, so I have concluded to take an interest in it hereafter. Good day."
